MEMORANDUM FOR: Deputy Director for Administration

FROM:

Acting Director of Logistics

25X1

SUBJECT: Request for A/E Funds for Energy
Recovery System

1. This memorandum requests your approval for release of funds for A/E contractual services in support of an energy recovery installation.

2. At the recent briefing provided you by the Office of Logistics, Facilities Management Division (OL/FMD) on the plan for construction of an energy recovery system, questions were raised concerning the building profile and appearance. Included with this memorandum are photographs of the Andrews Air Force Base installation which demonstrate that a disposal facility can be planned and built within a reasonable height and acceptable appearance. As mentioned during the briefing, the preliminary proposal involved a prefabricated metal structure. With the funds released by you, OL/FMD will proceed with development of final specifications, an acceptable site plan for the Headquarters Compound, and also several design options for a masonry structure, all of which will be reviewed with you prior to award of construction and installation.

3. Based on the current completion estimate of \$3.4 million for the design and construction of a 12,000 square foot facility, it is requested that \$300,000 of the \$1.045 million in FY-87 funds frozen by the DDA be released to permit us to proceed with the design of the facility. This action will ensure completion of the facility in FY-89.
